

FRENCH DOORS WITH INTERNAL BLINDS

Simpson design #7102 French door with internal blinds lets you control the view and privacy at the touch of a finger. The easy operation allows you to tilt the blinds open or closed, plus you can raise or lower the blind. And since the blinds are protected on both sides by glass, they never collect dust or become damaged. No more cords to pull and no more blinds banging against the door each time you open it. Just perfect control and a beautiful appearance.
